

# Sundance Film Festival 2023

*Miderra Transportation Management is the preferred choice of industry professionals for the Sundance Film Festival and has been an “Official Provider” since 2006. [Miderra.com](https://www.miderra.com)*

If you are looking to secure transportation services for you and your team we offer significantly discounted packages from our official transportation provider: Miderra. Miderra is the ONLY fleet with all the parking passes needed for close access to the entrance of our theatres, the press line areas, as well as the ability to park and wait on-site at all the official non-theatre Sundance venues and Main Street.

Additionally, our Artist Relations Fleet (generously provided by Acura) will provide transportation for all directors to attend their Intros and Q&As for their scheduled screenings outside of Park City. These may take place in Salt Lake City or at the Sundance Mountain Resort, and includes public and any special screenings.

Travel time from the Salt Lake City International Airport to Park City is approximately one hour. We do not have an official relationship with a shuttle company and do not have discounted rates to offer. We suggest looking at the ground transportation options on the Salt Lake City International Airport official website, [here](#).
