Preserve Your Work

The work you create is vital to both the history of independent storytelling and the heritage of Sundance Institute, and we strive to protect and preserve your stories. In addition to providing a safe and secure home for your film through the Sundance Collection at UCLA, we offer tips and guidelines to help ensure your work is not lost, no matter the medium or platform you use.

Please help us protect your stories by taking advantage of our services and contacting our knowledgeable team. Digital preservation is ever-evolving, so always feel free to ask questions and share your findings with us at archives@sundance.org. For additional information, please visit sundance.org/archives.
